"Pushing the limits of the chant music genre in the most brilliant way, Girish pours out such an amazing range of feeling that you are left stilled and silenced."  
**Aura Magazine**

"Masterpiece is not too strong a term for this CD. *Shiva Machine* is a kirtan tour de force."  
**Linda Johnsen**, author of *Daughters of the Goddess*

"*Shiva Machine* rocks! This CD signals a definitive next step in the stylistic possibilities of the chant genre. If there were a yoga Top 40, *Shiva Machine* would secure several top 10 hits."  
**Australian Yoga Life Magazine**
